

The Medicaid expansion has been a great deal for New Mexico

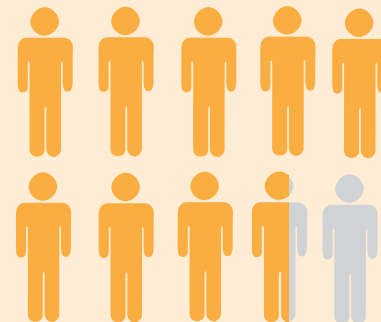

In 2013, the state was paying **\$905 million** to cover **483,000** New Mexicans

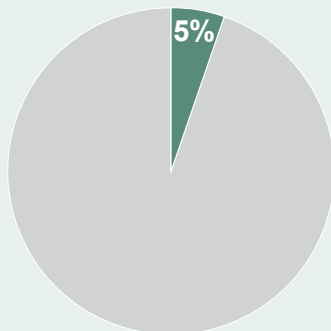

\$100 million = 

 = 100,000 people

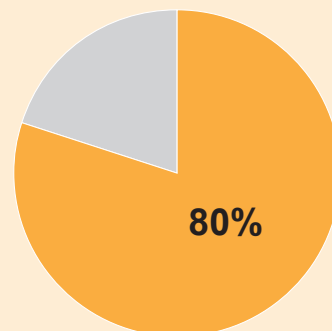

In 2019, the state will pay **\$933 million** to cover almost **900,000** people

So, while our costs will have increased by less than **5%**,

the number of New Mexicans receiving health care under Medicaid will have increased by **80%**
