- Provides key payment source for NM providers
- Few premiums or co-pays

Benefits of Medicaid expansion

Tell Us Your Stories

- *How have you seen these statistics in your own work and communities?*
- *What are some challenges/barriers to accessing Medicaid and healthcare in general?*

Policy Priorities

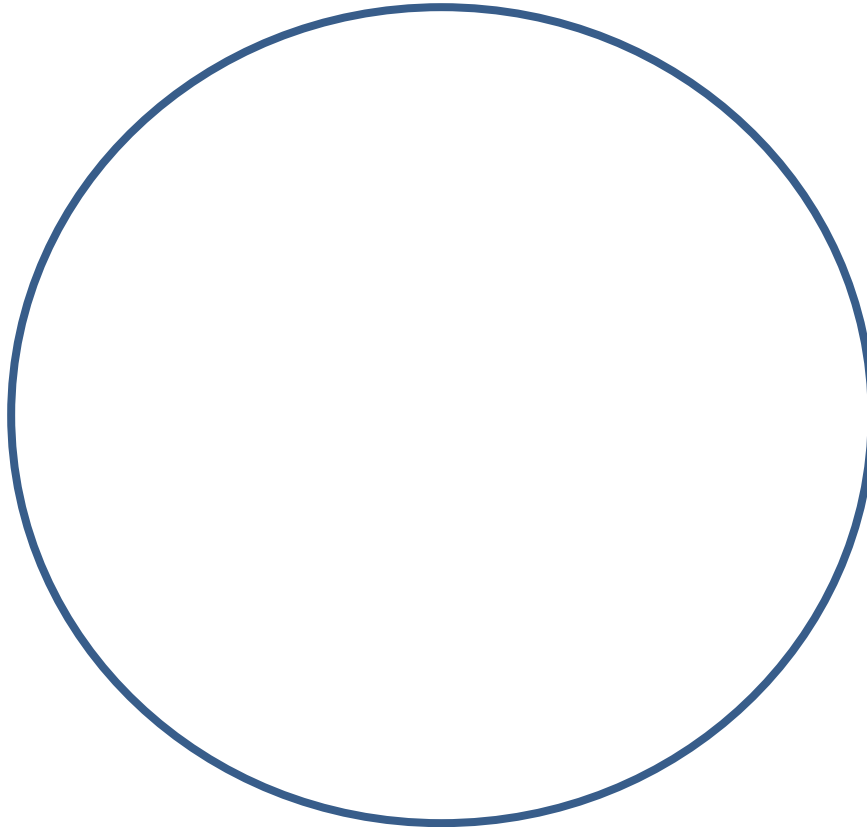

How we got here

- 14% cut in per-pupil K-12 spending from 2008-2018.
- 35% cut in per-pupil higher education spending, leading to steep tuition increases.
- Cuts to special education funding, resulting in an even greater loss of federal dollars for special ed.
- Enrollment in child care assistance has dropped by 27% since 2010.
- Cut U.I. benefits, including the increment for children of unemployed workers.
- Underfunding of the Medicaid program by hundreds of millions in recent years.
- Tax cuts made our tax system even more regressive AND we have hundreds of millions of dollars less AND the tax cuts failed to create jobs.

Our tax system asks the most of those who can afford it least

Those in NM with the Lowest Incomes Pay the Highest Rates in State and Local Taxes

Source: *Who Pays?*, Institute on Taxation and Economic Policy, 2015

Improve our tax system

Child poverty is a longstanding pervasive issue and we need a set of targeted initiatives to end child poverty

- NM's tax system is grossly unfair to working families.
- 75% of families pay more than **double** what the richest families pay in state and local taxes as a share of their incomes.
- Our tax policy has been driven by a false promise to create jobs, but it has come at the expense of our kids and families.

The Earned Income Tax Credit and NM's Working Families Tax Credit

- EITC injects \$500 million into NM economy.
- NM's Working Families Tax Credit returns \$50 million to working families.
- 97% goes to working families with kids.
- Without these two credits, 40,000 *more* NM families would be in poverty.
- If tax reform is debated, lawmakers should consider increasing the WFTC to at least 15% of the EITC.

“The best anti-poverty, the best pro-family, the best job creation measure to come out of Congress.”

- Ronald Reagan on the EITC

Raise new revenue to avoid more harmful budget cuts

- Reverse the big corporate income tax cut.
- Enact combined reporting of all corporate taxes.
- Repeal the capital gains exemption.
- Enact a new PIT increase or surtax on high incomes.
- Enact a new health care provider assessment fee.
- Raise tobacco and alcohol taxes.
- Repeal ineffective or wasteful tax breaks.
- Tax all internet sales.

Big impact/no cost initiatives

No cost to the general fund

- Increase the minimum wage.
- Enact paid sick leave & expand family medical leave.
- End predatory lending practices like payday, car title, rent-to-own, and tax refund lending by capping interest rates at 36%.
- Invest a fraction of the Land Grant Permanent Fund in early care and education.

Early care and education

- Current funding is serving only a fraction of our eligible children.
- Eligibility for child care assistance is below 2001 levels (child care costs more than tuition at UNM).
- Enrollment in child care assistance is 27% **lower** than it was in 2010.
- NM needs a strong commitment to ECE and a stable and robust source of funding.

Fully fund early childhood care and learning programs

Invest 1% of \$18 billion LGPF

- To fund home visiting, child care assistance, NM pre-K, and workforce development.
- A dedicated, adequate, stable funding source.
- Does not raise taxes.
- LGPF will continue to grow.
- ECE provides better ROI than the stock market.

Fully fund child abuse prevention

- Prioritize early childhood care and education.
- Add ACEs screening to EPSDT.
- Reduce child protective services vacancy rate.
- Ensure adequate compensation and ongoing, extensive training for caseworkers.
- Restore and increase behavioral health services for families.

Who is still uninsured?

Medicaid buy-in is a viable option to help many uninsured access affordable health care insurance

Source: Kaiser Family Foundation

If Medicaid buy-in was an option

- Medicaid-ineligible consumers could use premium tax credits to buy into Medicaid.
- Medicaid buy-in plans could be cheaper than what's available on the exchange.
- Would get more coverage for less.
- Medicaid buy-in plans could be offered to non-citizens and to employers.
